**FAMILY RESOURCE HOME CARE ACQUIRES SNOHOMISH COUNTY BASED  
CASCADE IN-HOME CARE**

LIBERTY LAKE, Wash. – Family Resource Home Care announced today the acquisition of Arlington, WA based Cascade In-Home Care. The transaction is part of Family Resource’s strategic plan for ongoing expansion and brings the total number of regional offices for the Spokane-based company to nine.

Cascade In-Home Care has served King and Snohomish counties since 2010, under the ownership of Linda and Jon Senn. The transaction, which was completed December 24, 2018, will increase Family Resource’s employee total by 120. Linda Senn will remain with the company as a Business and Marketing Analyst. Long-time Cascade administrator Caroleen Chiorah will continue as Regional Manager.

“We are honored to welcome the Cascade team into our family,” said Jeff Wiberg, Family Resource Home Care CEO. “I have personally known Jon and Linda for years and I’m very familiar with the quality care they and their team provide, which aligns perfectly with the high standards at Family Resource Home Care.”

“Having served on the Washington Home Care Association board with both Jeff Wiberg and [Family Resource Board Chair] David Lawrence for the past 5 years I am confident that we are leaving our company in excellent hands,” said Linda Senn. “It was very important to us that we sell to a company who will treat both our employees and clients with the respect they deserve and whose focus is on quality rather than quantity.”

According to recent census reports, currently more than 42 million Americans are age 65 or older, a number that is expected to double by 2050. Among this population nine million individuals are 85 years of age and older and that number is expected to nearly triple over

the same period. Family Resource Home Care is preparing for this population shift by expanding their reach, now numbering over 850 employees in nine offices across Washington and Idaho and serving more than 1,000 clients and their families.

“Over the next five years, we plan to grow and expand our business through strategic acquisitions of existing home care businesses that align with our business model and values,” said Wiberg. “Along the way, we will be creating jobs within each new market and seeking the best talent who enable us to provide the highest quality of care.”

Family Resource Home Care is the largest independent provider of home care services based in the Pacific Northwest and one of the largest in the United States. The company provides home care services that include but are not limited to personal care such as bathing, dressing and help with medications, meal planning and preparation, light housekeeping, and companion care. The company also provides care for clients facing dementia and Alzheimer’s Disease as well as end-of-life, transitional and respite care.

The company is focused on empowering clients to continue living at home by providing them with home care services that address their unique challenges. The company is headquartered in Liberty Lake, WA, and has field offices in Arlington, Bellevue, Kennewick, Liberty Lake, Seattle, Spokane and Tacoma in Washington State, and Boise and Moscow, Idaho.
